LETTER FROM THE BOARD

INFORMATION ON TI YU AND ITS INTENTION REGARDING THE GROUP

Your attention is drawn to the sections headed “Information on Ti Yu” and “Intention of Ti Yu regarding the Group” in the letter from Kingston Securities set out on pages 12 to 20 in this Composite Offer Document.

MAINTAINING THE LISTING STATUS OF THE COMPANY

Ti Yu intends that the Company will remain listed on the Stock Exchange after the close of the Offer. The Company, Directors, Ti Yu and the new directors to be appointed to the Board have jointly and severally undertaken to the Stock Exchange to take appropriate steps to ensure that sufficient public float exists in the Shares.

The Stock Exchange has stated that if, at the close of the Offer, less than the minimum prescribed percentage applicable to the Company, being 25% of the issued Shares, are held by the public or if the Stock Exchange believes that:

- a false market exists or may exist in the trading of the Shares; or
- there are insufficient Shares in public hands to maintain an orderly market;

it will consider exercising its discretion to suspend trading in the Shares.

RECOMMENDATIONS

Your attention is drawn to the respective letters from the Independent Board Committee and Baron set out on pages 21 to 22 and pages 23 to 43 of this Composite Offer Document containing their respective recommendations and advice in respect of the Offer.

Mr. Ching Kwok Ho, Samuel, an independent non-executive Director, had at the request of an agent of Ti Yu (a personal friend of Mr. Ching), introduced that agent to Mr. Cheung subsequent to which negotiations which culminated in the Share Purchase were initiated. Mr. Ching did not participate in any of the negotiations relating to the Share Purchase. Mr. Ching has confirmed that (i) he has not, and will not, receive any benefit from the agent or from the Offeror or parties acting in concert with it in connection with such introduction; and (ii) he has not had any prior business dealings or relationship with Ti Yu or any party acting in concert with it (excluding, for the avoidance of doubt, his personal friend being the agent of Ti Yu which he introduced to Mr. Cheung and with whom he had in the past a client solicitor relationship, which relationship was not material to the law practice of Mr. Ching).

LETTER FROM THE BOARD

The Independent Board Committee, having considered the circumstances above, considered that Mr. Ching's role in effecting the introduction described above and his relationship with Ti Yu's agent do not affect the independence of Mr. Ching as a member of the Independent Board Committee. However, to avoid any suggestions otherwise, Mr. Ching has withdrawn from the Independent Board Committee. Baron also concurred with the views of the Independent Board Committee.

ADDITIONAL INFORMATION

Your attention is also drawn to the letter from Kingston Securities set out on pages 12 to 20 in this Composite Offer Document as well as the additional information contained in Appendices I to III to this Composite Offer Document and the accompanying Form of Acceptance.

Yours faithfully,
For and on behalf of the Board

The aggregate consideration for the Offer will be financed by a credit facility provided by Kingston Securities to Ti Yu. purchased by Ti Yu pursuant to the Sale and Purchase Agreement and all the Shares to be acquired by Ti Yu under the Offer (if any) by use of the loan facility being deposited with Kingston Securities from time to time as collateral for such loan facility. The arrangement above will not result in a change of the voting rights of Ti Yu in respect of the collateralized Shares. The collateralized Shares shall be released to Ti Yu immediately upon full repayment of all the outstanding amounts of the loan facility and the interest thereon. Ti Yu confirms that repayment of the credit facility, the interest accrued thereon or any liability thereunder will not be dependent on the business of the Company. Effect of accepting the Offer

By accepting (i) the Share Offer, the accepting Shareholders will sell their respective Shares and all rights attached to them; and (ii) the Option Offer, the accepting Optionholders will surrender to the Company their respective Options for cancellation by the Company.

Stamp duty

Stamp duty at a rate of HK\$1 for every HK\$1,000 (or part of thereof) of the amount payable in respect of relevant acceptances will be deducted from the amount payable to the Shareholders who accept the Share Offer. Ti Yu will then pay such stamp duty deducted to the stamp office of the Inland Revenue Department of Hong Kong on behalf of such Shareholders who accept the Share Offer.

Compulsory acquisition

As the Independent Board Committee, we have been appointed to advise you in connection with the Offer, details of which are set out in the Composite Offer Document dated 3 August 2007 jointly issued by Ti Yu and the Company, of which this letter forms part. Terms used in this letter have the same meanings as given to them in the Composite Offer Document unless the context otherwise requires.

We note that one of our members, Mr. Ching Kwok Ho, Samuel had at the request of an agent of Ti Yu (a personal friend of Mr. Ching), introduced that agent to Mr. Cheung subsequent to which negotiations which culminated in the Share Purchase were initiated. Having considered the circumstances above, considered that Mr. Ching's role in effecting the introduction described above and his relationship with Ti Yu's agent do not affect the independence of Mr. Ching as a member of the Independent Board Committee. *To the Independent Board Committee of
Gay Giano International Group Limited*

Dear Sirs,

**MANDATORY UNCONDITIONAL CASH OFFER BY
KINGSTON SECURITIES LIMITED
ON BEHALF OF
TI YU INVESTMENTS LIMITED
FOR ALL THE ISSUED SHARES AND OUTSTANDING OPTIONS IN
GAY GIANO INTERNATIONAL GROUP LIMITED
(OTHER THAN THOSE ALREADY OWNED OR AGREED TO BE ACQUIRED BY

INTRODUCTION

We refer to our appointment by Gay Giano International Group Limited to advise its independent board committee formed in respect of the mandatory unconditional cash offer, details of which are set out under the section headed "Letter from the Board" contained in the composite offer document dated 3 August 2007 (the "Composite Offer Document"), of which this letter forms part. Terms used in this letter shall have the same meanings as defined in the Composite Offer Document unless the context otherwise requires.

On 5 July 2007, the Company and Ti Yu jointly announced that the Sale and Purchase Agreement was entered into among Ti Yu, Gay Giano (BVI), Mr. Wong (being the sole beneficial owner of Ti Yu), and Mr. Cheung (being the beneficial owner of 72.5% of Gay Giano (BVI)) on 26 June 2007, pursuant to which Ti Yu conditionally agreed to purchase and Gay Giano (BVI) conditionally agreed to sell 120,000,000 Shares for a total consideration of HK\$100,000,000 (equivalent to approximately HK\$0.8333 per Share). Immediately after the Completion, which took place on 10 July 2007, and as at the Latest Practicable Date, Ti Yu, Mr. Wong and parties acting in concert with them were interested in an aggregate of

LETTER FROM BARON

120,000,000 Shares, representing approximately 57.46% of the entire issued share capital of the Company as at the Latest Practicable Date and 40,000 Options remained outstanding. Accordingly, Ti Yu, Mr. Wong and parties acting in concert with them are obliged to make a mandatory unconditional cash offer for all the issued Shares (other than those Shares already owned by Ti Yu, Mr. Wong and parties acting in concert with any one of them) pursuant to Rule 26.1 of the Takeovers Code and to make a comparable offer for all outstanding Options pursuant to Rule 13 of the Takeovers Code.

In accordance with Rule 2.1 of the Takeovers Code, the Independent Board Committee comprising the two independent non-executive Directors, namely, Mr. Chan Ka Ling, Edmond and Mr. Lo Wa Kei, Roy, has been formed to advise the Independent Shareholders and the Optionholders in respect of the Offer. As stated in the paragraph headed “Recommendation” under the section headed “Letter from the Board” in the Composite Offer Document, Mr. Ching Kwok Ho, Samuel (“Mr. Ching”), an independent non-executive Director, had at the request of an agent of Ti Yu (a personal friend of Mr. Ching), introduced that agent to Mr. Cheung subsequent to which negotiations which culminated in the Share Purchase were initiated. Mr. Ching did not participate in any of the negotiations relating to the Share Purchase. Mr. Ching has confirmed that (i) he has not, and will not, receive any benefit from the agent or from the Offeror or parties acting in concert with it in connection with such introduction; and (ii) he has not had any prior business dealings or relationship with Ti Yu or any party acting in concert with it (excluding, for the avoidance of doubt, his personal friend being the agent of Ti Yu which he introduced to Mr. Cheung and with whom he had in the past a client solicitor relationship, which relationship was not material to the law practice of Mr. Ching).

The Independent Board Committee, having considered the circumstances above, considered that Mr. Ching’s role in effecting the introduction described above and his relationship with Ti Yu’s agent do not affect the independence of Mr. Ching as a member of the Independent Board Committee. However, to avoid any suggestions otherwise, Mr. Ching has withdrawn from the Independent Board Committee. We concurred with the views of the Independent Board Committee.

We have been appointed and approved by the Independent Board Committee to advise the Independent Board Committee in respect of the Offer pursuant to Rule 2.1 of the Takeovers Code.

Kingston Securities, on behalf of the Offeror, is making the Share Offer for all the issued Shares other than those already owned by or agreed to be acquired by the Offeror, Mr. Wong and parties acting in concert with them and the Option Offer for cancellation of all outstanding Options in compliance with the Takeovers Code on the following basis:

For each Offer ShareHK\$ 0.8334 in cash
For cancellation of each Option (based on the
difference between the Offer price of HK\$0.8334
per Offer Share and the exercise price of
HK\$0.2528 for each Option Share)HK\$ 0.5806 in cash

All the Offer Shares and the Options subject to the Offer will be fully paid and free from all liens, equities, charges and encumbrances and together with all rights now and thereafter attaching thereto, including the right to receive and retain all dividends and other distributions declared, made or paid after the Completion.

Further terms and conditions of the Offer, including the procedures for acceptance, are set out in Appendix I to the Composite Offer Document.

PRINCIPAL FACTORS AND REASONS CONSIDERED

In arriving at our opinion and recommendation to the Independent Board Committee in respect of the Offer, we have taken into consideration the following principal factors and reasons:

LETTER FROM BARON

I. The Share Offer

1. *Business and prospects of the Group*

The Company is an investment holding company and its Shares are listed on the Main Board of the Stock Exchange. The Group is principally engaged in the manufacture, retail and wholesale of fashion apparel and complementary accessories.

According to the annual reports of the Company for the three financial years ended 31 March 2007, the Group's revenue was derived predominantly from the retail and wholesale of fashion apparel segment and Hong Kong is the major geographical segment of the Group.

According to the data sourced from the website of the Census and Statistics Department of Hong Kong, the Gross Domestic Product (GDP) in Hong Kong in the first quarter of 2007 encountered an increase of 5.6% in real terms over a year earlier and the private consumption expenditure also grew by 5.6% in real terms in the first quarter of 2007 over a year earlier. Moreover, according to a press release on statistics posted on the website of the Census and Statistics Department of Hong Kong on 3 July 2007, the total retail sales for the first five months of 2007 increased by 8.3% in value or 6.2% in volume over the same period a year earlier. Despite the above, the operating environment in the retail industry is getting rather stiff, the entries of various famous foreign brands, such as Zara and Mango, which compete for the same group of customers of the Group, further intensify the competition in Hong Kong fashion market. The local retail chains had been forced to have price reduction, which was also one of the marketing strategies implemented by the Group, and this eventually led to decrease of their gross profits. Furthermore, the retail rentals are expected to be in an increasing trend. We have also noted from a market report sourced from the website of Colliers International (Hong Kong) Limited in relation to the market overview for July 2007 that due to the sustained growth of local consumption and the strong occupational demand for prime retail units, the average retail rentals in traditional shopping districts showed a quarter-on-quarter increase of 10% from HK\$345 per sq ft per month in February 2007 to HK\$378 per sq ft per month as at the end of May 2007.

As advised by the Company, there had not been any material change in the operating environment of the Group since 31 March 2007 and the Group continued to face a challenging operating environment including the increase in retail rentals and the administrative costs. We are of the opinion that, taking into account the increase in new entries to the local fashion market and the increase in retail rentals, the operating environment of the Group will be challenging and the competition in the local fashion market remains to be keen.

LETTER FROM BARON

2. *Historical financial performance of the Group*

The following table summarizes the audited consolidated results of the Group for each of the three financial years ended 31 March 2007 as extracted from the Company's annual reports. Further details of the results and other financial information of the Group are set out in Appendix II to the Composite Offer Document.

Net current assets of the Group	35,020	33,894	30,504
Net assets of the Group	50,178	52,324	49,780

Financial performance for the year ended 31 March 2005

According to the annual report of the Company for the year ended 31 March 2005 (the "Annual Report 2005"), the result of the Group recorded a significant turnaround from the consolidated net loss attributable to the Shareholders of approximately HK\$8.5 million in 2004 to net profit attributable to the Shareholders of approximately HK\$13.9 million in 2005. This significant improvement is the result of the valuable contribution dedicated by the management team, including the restructuring of the distributional channel, such as to relocate the retail outlets to smaller locations in the same shopping mall so as to improve the contribution from each floor area to the Group's turnover and to control the rental costs to the Group, and the gradual economic recuperation in Hong Kong.

Moreover, the Group's turnover for the year ended 31 March 2005 increased by approximately 3.4% to approximately HK\$126.4 million as compared with that for the previous year, due to the improvement in distributional efficiency of the Group. The gross profit margin of the Group improved by approximately 7.2% as compared with that for the previous year, due to the effective production cost control and customers' recognition of the Group's well-established brands and products.

LETTER FROM BARON

As at 31 March 2005, total assets of the Group increased by approximately 16.1% to approximately HK\$63.3 million, with net current assets increased by approximately 87.8% to approximately HK\$30.5 million due to the increased level of inventories and bank balances and cash during the year. Accordingly, the net assets of the Group increased to approximately HK\$49.8 million.

Financial performance for the year ended 31 March 2006

As mentioned in the annual report of the Company for the year ended 31 March 2006 (the “Annual Report 2006”), the gross profit margin of the Group for the year ended 31 March 2006 was maintained at approximately 66.8%, representing an approximately 3.1% decrease as compared with that for the previous year, due to the inflation of imported fabrics and fashion accessories from European countries, and the keen price competition in the fashion retail market. The Group was able to achieve an increase in turnover of approximately 5.0% to approximately HK\$132.8 million for the year ended 31 March 2006, which is mainly due to the Group’s effort in the restructuring of the distributional channel and in promoting the customers’ recognition of the Group. The growth in turnover of the Group however was limited by the keen competition in the fashion market and slower than expected momentum in the economic recovery. The net profit for the year ended 31 March 2006 decreased by approximately 84.6% to approximately HK\$2.1 million and is mainly due to the highly competitive operating environment in the retail market including the increase in retail rentals and the administrative costs such as staff salaries, which had outweighed the Group’s effort in the restructuring of the distributional channel as mentioned above, and an one-off property disposal profit of approximately HK\$4.9 million was recorded in previous year. As shown in the Annual Report 2006, the retail rentals showed an increase of approximately HK\$2.4 million, or an increase of approximately 7.9%, from financial year 2005, despite the total retail floor area remained at a similar level in both years. The administrative expenses also showed an increase of approximately HK\$5.1 million, or an increase of approximately 14.1%, from the financial year 2005.

As at 31 March 2006, total assets of the Group increased by approximately 8.0% to approximately HK\$68.4 million, with net current assets increased by approximately 11.1% to approximately HK\$33.9 million due to the increased level of inventories. Accordingly, the net assets of the Group increased to approximately HK\$52.3 million.

LETTER FROM BARON

Financial performance for the year ended 31 March 2007

As mentioned in the annual report of the Company for the year ended 31 March 2007 (the “Annual Report 2007”), the Group’s turnover for the year ended 31 March 2007 was maintained at a similar level of approximately HK\$131.4 million, representing a decrease of approximately 1.0% as compared with that for the previous year, due to the keen price competition in fashion market. The gross profit margin of the Group for the year ended 31 March 2007 was approximately 65.1%, representing a decrease of approximately 1.7% as compared with that for the previous year, due to the price inflation of imported fabrics and fashion accessories from European countries, and the keen price competition in the retail market.

As a result of the continuing highly competitive operating environment, the Group recorded a net loss of approximately HK\$2.6 million for the year ended 31 March 2007 as compared to the net profit of approximately HK\$2.1 million in the previous year.

As at 31 March 2007, total assets of the Group decreased by approximately 7.0% to approximately HK\$63.6 million, with net current assets increased by approximately 3.3% to approximately HK\$35.0 million due to decrease in accrued liabilities and other payables. Accordingly, the net assets of the Group decreased to approximately HK\$50.2 million.

Taking into account the business prospects of the Group as referred to in the subparagraph headed “Business and prospects of the Group” above and the given historical financial performance of the Group as analysed above, we are of the view that, the operating environment for the Group remains to be challenging, particularly taking into account the keen competition in the fashion market, increase in imported costs of the raw materials and fabrics and increase in the rental costs in Hong Kong. As stated earlier, most of the turnover of the Group is generated from the local market. We consider that the entries of various overseas fashion brands, which may directly compete with the Group by price, will inevitably bring down the profit margin of the Group. Besides, those overseas brands had tried to increase their brand recognition and awareness by opening up retail shops in the prime areas in Hong Kong, thereby further pushing up the local retail rentals.

3. *Background of Ti Yu and its intention regarding the future of the Group*

Background of Ti Yu

As stated in the paragraph headed “Information on Ti Yu” under the section headed “Letter from Kingston Securities” in the Composite Offer Document, Ti Yu is an investment holding company incorporated in the British Virgin Islands with limited liability on 9 June 2006 and is wholly owned by Mr. Wong. Other than the entering into of the Sale and Purchase Agreement, Ti Yu has not conducted any business since its incorporation.

Mr. Wong, aged 29, completed the law study programme at the Southwest University of Political Science and Law in the PRC. Being the deputy managing director of Guangdong Liantai Group, he is responsible for the group’s various investment projects. He is experienced in exploring opportunities for business development in the PRC. He is a member of the Chinese People’s Political Consultative Conference Shenzhen Committee. Mr. Wong is not a director of any of the listed companies in which he has substantial investments.

Intention of Ti Yu regarding the future of the Group

It is the intention of Ti Yu that the existing principal activities of the Company will remain unchanged and Ti Yu has no intention to put forward any major or material changes to the business of the Company and there is no plan to dispose of or re-deploy the assets of the Group other than in the ordinary course of business or to inject Ti Yu’s assets into the Group. If there is any asset injection or disposal by the Group following the close of the Offer, the implementation of such will be in accordance with all applicable laws, regulations and relevant provisions under the Listing Rules. Following the close of the Offer, Ti Yu intends to conduct a review of the Group’s financial position and operations and formulate a long-term strategy and plans for the Group in order to broaden and expand the scope of business of the Group.

Currently, the Board comprises three executive Directors, namely, Ms. Cheung Yin Sheung, Subraina, Mr. Tong Kwong Fat and Ms. Yung Wing Sze, Vivian, one non-executive Director, namely, Ms. To Ming Oi, Wendy, and three independent non-executive Directors, namely, Mr. Chan Ka Ling, Edmond, Mr. Ching Kwok Ho, Samuel and Mr. Lo Wa Kei, Roy. As referred to in the paragraph headed “Proposed change of the composition of the Board” under the section headed “Letter from Kingston Securities” in the Composite Offer Document, it is expected that all of the existing executive and non-executive Directors will resign and such resignations will take effect in full compliance with Rule 7 of the Takeovers Code and in accordance with the relevant employment contracts. It is

LETTER FROM BARON

proposed that Mr. Wong, Mr. Wong Kin Tung and Mr. Wong Kwong Lung, Terence will be appointed as executive Directors at the earliest time allowed under the Takeovers Code, that is, the despatch of the Composite Offer Document. As referred to in the same paragraph under the section headed “Letter from Kingston Securities” in the Composite Offer Document, Mr. Wong is experienced in exploring opportunities for business development in the PRC. Mr. Wong Kin Tung, being the brother of Mr. Wong, possesses experience in the senior management level. Mr. Wong Kwong Lung, Terence has over 15 years of experience in property development and investment in Hong Kong and the PRC and was an independent non-executive director of a listed company in Hong Kong for the period from 20 June 2001 to 29 December 2004.

Given that all the existing executive and non-executive Directors will resign from the Board, there are uncertainties as to the impact of such resignation on the Company’s operation. Taking into account that Ti Yu has the intention to maintain the existing principal activities of the Company and no major changes will be made to the Group’s assets other than in the ordinary course of business, the operating environment of the Company remains to be challenging. The Share Offer, however, provides an alternative ready exit for the Independent Shareholders to realize their investments in the Shares which may not exist in the open market. Independent Shareholders who have confidence in the Group’s business may consider not accepting the Share Offer but they are reminded to take into account the relevant risks and uncertainties involved.

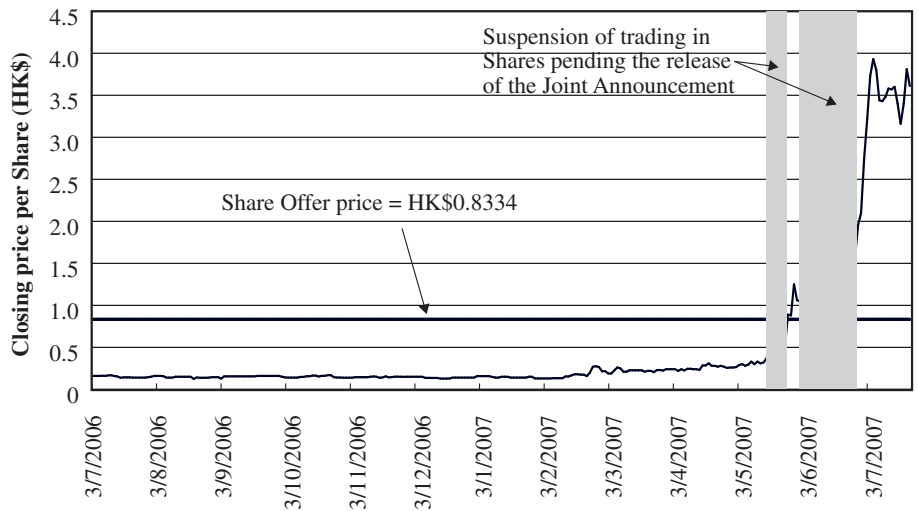

4. *Price performance and trading liquidity of the Shares*

(i) Historical Share price performance

The chart below illustrates the daily closing price per Share as quoted on the Stock Exchange from 3 July 2006 up to and including the Latest Practicable Date (the “Review Period”). In the context of evaluating a general offer, we consider that the length of the Review Period, which commences about a year before the suspension of the trading in the Shares prior to the Joint Announcement, provides sufficient data for us to analyse the historical performance of the Shares while avoiding any possible distortion to the results of the analysis caused by short-term market volatility.

LETTER FROM BARON

Closing prices of the Shares during the Review Period

Source: Website of the Stock Exchange (www.hkex.com.hk)

As shown in the above chart, the closing prices of the Shares were within a narrow range of HK\$0.125 and HK\$0.5 per Share during the period from 3 July 2006 to 25 May 2007, being the last full trading day of the Shares before the suspension of trading in Shares on 28 May 2007 pending the release of the price sensitive information announcement dated 1 June 2007 in respect of the negotiation of the Share Purchase (the “Price Sensitive Announcement”). The closing price of the Shares shot up to HK\$0.89 per Share on 4 June 2007, the date on which the Price Sensitive Announcement was released and trading in Shares resumed. The closing price of the Shares rose to close at HK\$1.25 per Share on 6 June 2007, which was probably prompted by market speculation of the possible change in control of the Company. Trading of Shares was suspended again with effect from 11 June 2007 pending the release of the Joint Announcement. After the issue of the Joint Announcement, the closing price of the Shares closed at HK\$1.56 per Share on 6 July 2007 and stayed at above that level until the Latest Practicable Date. We believe such increase in closing prices of the Shares after the release of the Joint Announcement as compared to the closing prices of the Shares prior to the release of the Joint Announcement was largely prompted by market speculation over the future prospect of the Group after the change in control of the Company. We consider that surge in the closing prices of the Shares after the release of the Joint Announcement and up to the Latest Practicable Date was neither supported by the asset base of the Group nor reflected any improvement in the fundamental factors of the Group. As such, we are of the view that the closing prices of the Shares after the release of the Joint Announcement,

LETTER FROM BARON

which was largely as a result of market speculation, may not be meaningful for the assessment of the price per Offer Share and such high level of market prices of the Shares may not be sustainable in the long run on the basis that the fundamental factors of the Group as analysed above remain unchanged.

The Share Offer price of HK\$0.8334 is slightly higher than the consideration for each Share acquired under the Sale and Purchase Agreement and such price represents:

- (a) a discount of approximately 20.63% to the closing price of HK\$1.05 per Share as quoted on the Stock Exchange on the Last Trading Day;
- (b) a discount of approximately 18.77% to the average of the closing prices of HK\$1.026 per Share for the last five consecutive trading days up to and including the Last Trading Day;
- (c) a premium of approximately 19.74% over the average of the closing prices of HK\$0.696 per Share for the last ten consecutive trading days up to and including the Last Trading Day;
- (d) a premium of approximately 245.81% over the unaudited consolidated net asset value per Share of approximately HK\$0.241 as at 30 September 2006 based on 200,130,000 Shares in issue as at 30 September 2006 as stated in the interim report 2006;
- (e) a premium of approximately 232.03% over the audited consolidated net asset value per Share of approximately HK\$0.251 as at 31 March 2007 based on 200,130,000 Shares in issue as at 31 March 2007 as stated in the annual report 2007; and
- (f) a discount of approximately 76.91% to the closing price of HK\$3.61 per Share as quoted on the Stock Exchange on the Latest Practicable Date.

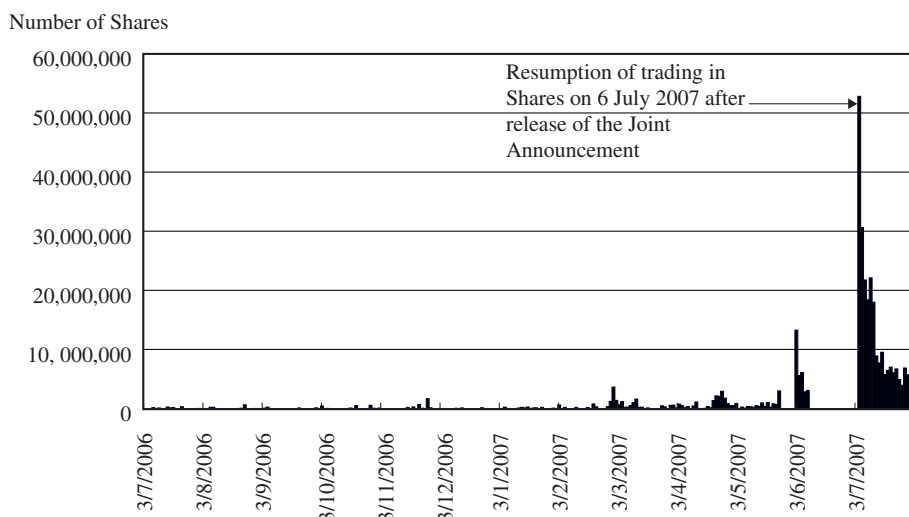

The Shares have been trading at a level below the price of HK\$0.8334 per Offer Share on the market at all times during the Review Period except for the trading days after the publication of the Price Sensitive Announcement and the Joint Announcement. The price of HK\$0.8334 per Offer Share also represents a significant premium of approximately 245.81% and approximately 232.03% over the unaudited consolidated net asset value per Share as at 30 September 2006 and the audited consolidated net asset value per Share as at 31 March 2007 respectively as detailed above.

LETTER FROM BARON

Notes:

1. Calculated by dividing the total monthly trading volume of the Shares for the month by the number of trading days (excluding those days for which trading in the Shares were suspended).
2. Based on 208,840,000 Shares in issue as at the Latest Practicable Date.
3. Based on 87,340,000 Shares held by the public as at the Latest Practicable Date.
4. Trading of Shares was suspended during the period from 28 May 2007 to 1 June 2007 pending the release of the Price Sensitive Announcement. Trading of Shares was then suspended again from 11 June 2007 till 5 July 2007 pending the release of the Joint Announcement.

As illustrated in the above chart and table, the average daily trading volume of the Shares in each month during the Review Period, which ranged from approximately 0.007% to approximately 0.390% of the total issued Shares, save for the months from June 2007 up to the Latest Practicable Date, being the periods subsequent to the release of the Price Sensitive Announcement and the Joint Announcement, was extremely thin. The recent increase in trading volume of the Shares in June and July of 2007 was believed to be triggered by market speculation subsequent to the release of the Joint Announcement on the Offer and the future prospect of the Group after the change in control of the Company.

Based on the trading volume of the Shares in the past, in our view, the level of liquidity of the Shares would not be sufficient for the Independent Shareholders to sell a significant number of their Shares in the market within a short period of time without exerting a downward pressure on the market price of the Shares.

(iii) Comparison with other general offers

In order to further assess the fairness and reasonableness of the price per Offer Share, we have reviewed the list of takeovers (last updated on 31 May 2007) as available from the Stock Exchange website, but could not identify any Main Board listed companies which had announced general offers since 1 January 2007 that are engaged in the same business as the Group. Instead we picked all the available recent general offers announced by the Main Board listed companies since 1 January 2007 (the “Comparable Companies”) as we consider that a broader comparison of general offers announced recently would provide a more general reference for the reasonableness of the pricing of the Share Offer. It should therefore be noted that the Comparable Companies listed below are engaged in various businesses different from those of the Group and their market capitalization may not be comparable to that of the Company and the result of our comparison below should not be used in isolation as a determining factor in deciding whether or not to accept the Offer.

LETTER FROM BARON

Notes:

1. Unless otherwise stated, all the above figures in relation to the Comparable Companies are extracted from the respective general offer announcements.
2. Last trading day refers to the last full trading day prior to the release of the relevant general offer announcements.
3. The market capitalisations are calculated based on the issued share capital of the Comparable Companies on their relevant last trading days prior to the release of the relevant general offer announcements and the closing price per share of the Comparable Companies on their relevant last trading days prior to the release of the relevant general offer announcements.
4. The figures under the combined offer as extracted from the related general offer announcement are used.
5. The premiums/discounts are extracted from the relevant general offer documents.
6. Not available as the Company has a net liability as shown in its latest published interim report before the related general offer announcement.

As seen from the above table, the premium/ discount of the offer prices of the Comparable Companies over/ to the closing price of shares on the last full trading day prior to the relevant general offer announcements ranged from a premium of approximately 58.20% to a discount of approximately 76.00%. As compared with the average closing price of shares for the ten consecutive trading days up to and including the respective last full trading days, the offer prices of the Comparable Companies were ranging from a premium of approximately 59.10% to a discount of approximately 66.70%. Moreover, the premium/discount of the offer price over/to consolidated net asset value per share ranged from a premium of approximately 142.70% to a discount of approximately 72.22%. The Company's Share Offer price represented a discount of approximately 20.63% to the closing price of the Shares on the Last Trading Day and a premium of approximately 19.74% over the average closing price of the Shares for the ten consecutive trading days up to and including the Last Trading Day, both of which are within the respective ranges of the Comparable Companies. The Company's Share Offer price represented a significant premium of approximately 245.81% and approximately 232.03% respectively over the consolidated net asset value per Share as at 30 September 2006 and as at 31 March 2007 which is far higher than that of the Comparable Companies. Based on the results of the above comparison, we consider that the Share Offer price is fair and reasonable.

5. *Valuation of the Group*

After our discussion with the Company on its nature of business, its business model and brand positioning, we are only able to identify three listed companies (the “Comparables”) in Hong Kong that are engaged in the similar business of the Group, details of which are set out as follows:

Name	Stock Code	Net asset value (HK\$ million)	Price to net asset value per share (Note 1)	Dividend
Moiselle International Holdings Limited	130	351.55	2.126	Yes
YGM Trading Limited	375	747.25	1.359	Yes
Veeko International Holdings Limited	1173	298.78	1.642	Yes
The Company	686	50.18	3.324 (Note 2)	No

Source: Website of the Stock Exchange (www.hkex.com.hk) and latest published annual reports of the respective companies

Notes:

1. Price to net asset value per share is defined as the market price per share as at the Latest Practicable Date over the net asset value per share as per the latest published annual reports of the respective companies.
2. Based on the Share Offer price and net asset value per Share as at 31 March 2007.

Price earnings multiples

Price earnings multiple is considered to be one of the most commonly adopted valuation methodologies for listed companies. However, as the Group suffered loss for the financial year ended 31 March 2007, the price earnings multiple of the Company cannot be derived from the Group’s latest audited financial statements for the year ended 31 March 2007. As such, it is not applicable to evaluate the Share Offer price on the basis of the price earnings multiple.

LETTER FROM BARON

Dividend yield

As the Group had not declared any dividend for the three financial years ended 31 March 2007. Given the Group's historical financial performance, it is not certain as to whether the Group will be able to pay dividends in the near term. It is therefore impracticable for us to assess the Share Offer price in terms of the dividend yield it represents.

Net asset value

The audited consolidated net asset value of the Group has decreased by approximately 4.09% from approximately HK\$52.32 million as at 31 March 2006 to approximately HK\$50.18 million as at 31 March 2007. Based on 200,130,000 Shares in issue as at 31 March 2007, the net asset value per Share as at 31 March 2007, was approximately HK\$0.251, on this basis, the Share Offer price of HK\$0.8334 represents a premium of approximately 232.03% to such net asset value per Share which is outside the respective range of the Comparable Companies under the sub-paragraph headed "Comparison with other general offers" above.

5. *Maintaining listing status of the Company*

Ti Yu intends that the Company will remain listed on the Stock Exchange after the close of the Offer. The Company, Directors, Ti Yu and the new directors to be appointed to the Board have jointly and severally undertaken to the Stock Exchange to take appropriate steps to ensure that sufficient public float exists in the Shares.

The Stock Exchange has stated that if, at the close of the Offer, less than the minimum prescribed percentage applicable to the Company, being 25% of the issued Shares, are held by the public, or if the Stock Exchange believes that:

- **a false market exists or may exist in the trading in the Shares; or**
- **there are insufficient Shares in public hands to maintain an orderly market;**

it will consider exercising its discretion to suspend trading in the Shares.

RECOMMENDATION

The Share Offer

Having considered the above factors, in particular, that:

- the Share Offer price of HK\$0.8334 is slightly higher than the consideration of HK\$0.8333 for each Share acquired under the Sale and Purchase Agreement, which was negotiated and determined on arm's length negotiations between Gay Giano (BVI) and Ti Yu;
- the Share Offer price is fair and reasonable as compared to those general offers of the Comparable Companies;
- the surge in the closing prices of the Shares after the release of the Price Sensitive Announcement and the Joint Announcement and up to the Latest Practicable Date was neither supported by the asset base of the Group nor reflected any improvement in the fundamental factors of the Group and such high level of the closing prices of the Shares after the release of the Joint Announcement, which was largely as a result of market speculation, may not be sustainable in the long run on the basis that the fundamental factors of the Group remain unchanged;
- the relatively low liquidity of the Shares which would not be sufficient for the Independent Shareholders to sell a significant number of their Shares in the market without exerting a downward pressure on the market price of the Shares;
- the Group continued to face the uncertain momentum of local economic growth and the inflationary pressure of the operating environment; and
- no dividend was declared by the Company to the Shareholders for the past three financial years ended 31 March 2007 and there is no certainty when the Group will be able to declare dividends given its historical financial performance;

we are of the opinion that the terms of the Share Offer, including the Share Offer price, to be fair and reasonable so far as the Independent Shareholders are concerned and accordingly advise the Independent Board Committee to recommend the Independent Shareholders to accept the Share Offer.

The Independent Shareholders are hereby advised to consider whether to dispose of the Shares in the open market if the market price of the Shares exceeds the Share Offer price during the offer period and if the net proceeds from such sales will be higher than the relevant costs. The Independent Shareholders should exercise caution in doing so as the disposal of a large tranche of Shares in the open market may exert downward price pressure on the Shares. On the other hand, those Independent Shareholders who wish to retain some or all their Shares on the account that they are confident in the future prospect and business of the Company and/or the new management team that may be brought in by Ti Yu and/or its owner are advised to carefully consider the future

LETTER FROM BARON

intention of Ti Yu and the proposed change of the composition of the Board in the paragraphs headed “Intention of Ti Yu regarding the Group” and “Proposed change of the composition of the Board” under the section headed “Letter from Kingston Securities” in the Composite Offer Document.

II. OPTION OFFER

As at the Latest Practicable Date, there are 40,000 Options outstanding which are exercisable at any time and entitle the holders thereof to subscribe for a total of 40,000 Shares at an exercise price of HK\$0.2528 each.

We have adopted the “see-through” price approach in the evaluation of the terms and prices of the Option Offer. The “see-through” price refers to the difference between the offer price for each share subject to a general offer less any given exercise price of the convertibles, and will be the minimum reasonable offer price for any convertibles under a general offer. Under the Option Offer, the Option Offer price of HK\$0.5806 is equivalent to the difference in value between the Share Offer price of HK\$0.8334 and the exercise price of HK\$0.2528 for each Option Share. On this basis and given our view that the terms of the Share Offer are fair and reasonable, we consider that the terms of the Option Offer to be fair and reasonable so far as the Optionholder is concerned. Accordingly, we advise the Independent Board Committee to recommend the Optionholders to accept the Option Offer.

The Optionholders are hereby advised to consider whether to exercise their Options and dispose of the resulting Shares in the open market if the market price of the Shares exceeds the exercise price of the Options during the offer period and if the net proceeds from such sales will be higher than the relevant costs. The Optionholders should exercise caution in doing so as the disposal of a large tranche of Shares in the open market may exert downward price pressure on the Shares. On the other hand, those Optionholders who wish to retain some or all their Options or exercise some or all of their Options and retain the resulting Shares thereupon on the account that they are confident in the future prospect and business of the Company and/or the new management team that may be brought in by Ti Yu and/or its owner are advised to carefully consider the future intention of Ti Yu and the proposed change of the composition of the Board in the paragraphs headed “Intention of Ti Yu regarding the Group” and “Proposed change of the composition of the Board” under the section headed “Letter from Kingston Securities” in the Composite Offer Document. In any event, the Optionholders should note that, in accordance with the terms of the Share Option Scheme, the Optionholders may, at any time and up to the close of the offer (or any revised offer) from the date on which an offer is declared unconditional (which is the case of the Company), exercise their outstanding Options. Options not exercised within such period will lapse.

Yours faithfully,
For and on behalf of
BARON CAPITAL LIMITED

Director

(b) Potential impact arising on the new/revised accounting standards not yet effective

The Group has not yet applied the following new standards, amendments or interpretations that have been issued but are not yet effective. The directors of the Company anticipated that the application of these new HKFRSs will have no material impact of the financial statements of the Group.

3. Principal accounting policies**(a) Statement of compliance**

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations (hereinafter collectively referred to as the “HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Hong Kong Companies Ordinance.

(b) Basis of preparation

The financial statements have been prepared under the historical cost basis, except for certain properties and financial instruments, which are measured at fair values or revalued amounts as explained in the accounting policies set out below.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. Judgements and estimations made by the management that have a significant effect on the financial statements are discussed in note 32 of the financial statements in the annual report.

(c) Basis of consolidation

Where the Company has the power, either directly or indirectly, to govern the financial and operating policies of another entity or business so as to obtain benefits from its activities, it is classified as a subsidiary. The consolidated financial statements present the results of the Company and its subsidiaries (“the Group”) as if they formed a single entity. Inter-company transactions and balances between group companies are therefore eliminated in full in preparing the consolidated financial statements.

On acquisition, the assets and liabilities of the relevant subsidiaries are measured at their fair values at the date of acquisition.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective dates of acquisition or up to the effective dates of disposal, as appropriate.

In the Company’s balance sheet, investments in subsidiaries are stated at cost less impairment loss, if any.

(d) Subsidiaries

A subsidiary is an entity over which the Company is able to exercise control. Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

(e) Revenue recognition

Revenue from sales of goods is recognised when title of the goods has passed to the purchaser, which is at the time of delivery.

Interest income is accrued on a time basis on the principal outstanding at the applicable interest rate.

Royalty fee income is recognised on accrual basis in accordance with the terms of the agreements.

(f) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Capitalisation of such borrowing costs ceases when the asset is substantially ready for its intended use or sale.

All other borrowing costs are charged to the consolidated income statement in the year in which they are incurred.

(g) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to lessee. All other leases are classified as operating leases.

The Group as lessee

Where substantially all of the risks and rewards incidental to ownership of a leased asset have been transferred to the Group (a “finance lease”), the asset is treated as if it had been purchased outright. The amount initially recognised as an asset is the present value of the minimum lease payments payable over the term of the lease. The corresponding lease commitment is shown as a liability. Lease payments are analysed between capital and interest. The interest element is charged to the income statement over the period of the lease and is calculated so that it represents a constant proportion of the lease liability. The capital element reduces the balance owed to the lessor.

Where substantially all of the risks and rewards incidental to ownership are retained by the lessor (an “operating lease”), the total rentals payable under the lease are charged to the income statement on a straight-line basis over the lease term.

(h) Income taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred tax arises from temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes and is accounted for using the balance sheet liability method. Except for recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates expected to apply in the period when the liability is settled or the asset is realised based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Income taxes are recognised in the income statement except when they relate to items directly recognised to equity in which case the taxes are also directly recognised in equity.

(i) *Share based payment*

Where share options are awarded to employees, the fair value of the options at the date of grant is charged to the income statement over the vesting period. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each balance sheet date so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the income statement over the remaining vesting period.

Where equity instruments are granted to persons other than employees, the income statement is charged with the fair value of goods or services received unless the goods or services qualify for recognition as assets. A corresponding increase in equity is recognised. For each-settled share based payments, a liability is recognised at the fair value of the goods or services received.

(j) *Employee benefits*

(i) *Defined contribution retirement plans*

Contributions to defined contribution retirement plans are recognised as an expense in the income statement when the services are rendered by the employees.

(ii) *Long service payments*

The Group's net obligations in respect of lump sum long service amounts payable on cessation of employment in certain circumstances under the Hong Kong Employment Ordinance is the amount of future benefits that employee have earned in return for their services in the current and prior periods. The obligations is calculated using the projected unit credit method, discounted to its present value, and the fair value of any related plan assets is deducted. The discount rate is the yield at balance sheet date on government bonds that have maturity dates approximating the terms of the Group's obligations.

(iii) *Termination benefits*

Termination benefits are recognised when, and only when, the Group demonstrably commits itself to terminate employment or to provide benefits as a result of voluntary redundancy by having a detailed formal plan which is without realistic possibility of withdrawal.

(iv) *Employee entitlements*

Employee entitlements to annual leave and long service payment are recognised when they accrue to the employees. A provision is made for the estimated liability for annual leave and long service payments as a result of services rendered by employees up to the balance sheet date. Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(k) *Foreign currency*

Transactions entered into by Group entities in currencies other than the currency of the primary economic environment in which it operates (the “functional currency”) are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences arising on the retranslation of unsettled monetary assets and liabilities are similarly recognised immediately in the income statement, except for foreign currency borrowings qualifying as a hedge of a net investment in a foreign operation.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in the income statement in the period in which they arise, except for exchange differences arising on a monetary item that forms part of the Group’s net investment in a foreign operation, in which case, such exchange differences are recognised in equity in the consolidated financials statements. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in the income statement for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity, in which cases, the exchange differences is also recognised directly in equity.

On consolidation, the results of foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rate approximating to those ruling when the transactions took place. All assets and liabilities of overseas operations are translated at the rate ruling at the balance sheet date. Exchange differences arising on translating the opening net assets at opening rate and the results of overseas operations at actual rate are recognised directly in equity (the “exchange fluctuation reserve”). Exchange differences recognised in the income statement of Group entities’ separate financial statements on the translation of long-term monetary items forming part of the Group’s net investment in the overseas operation concerned are reclassified to the exchange fluctuation reserve if the item is denominated in the functional currency of the Group or the overseas operation concerned.

(l) *Impairment of non-financial assets*

Other non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount (i.e. the higher of value in use and fair value less costs to sell), the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset’s cash-generating unit (i.e. the lowest group of assets in which the asset belongs for which there are separately identifiable cash flows).

Impairment charges are included in the administrative expenses line item in the income statement, except to the extent they reverse gains previously recognised in the reserves.

(m) Property, plant and equipment

The building component of owner-occupied leasehold properties are stated at valuation less accumulated depreciation. Revaluations are performed with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair values at the balance sheet date. Increases in valuation are credited to the leasehold land and buildings revaluation reserve. Decreases in valuation are first offset against increases on earlier valuations in respect of the same property and thereafter charged to the income statement. Any subsequent increases are credited to the income statement up to the amount previously charged and thereafter to the leasehold land and buildings revaluation reserve.

Upon disposal, the relevant portion of the revaluation reserve realised in respect of previous valuations is released from the leasehold buildings revaluation reserve to retained earnings.

Other property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Property, plant and equipment are depreciated so as to write off their cost or valuation net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives and residual value are reviewed, and adjusted if appropriate, at each balance sheet date. The useful lives are as follows:

Leasehold Land and Buildings	Over the lease terms
Leasehold improvements	5 years
Plant and machinery	5 years
Furniture and fixtures	5 years
Motor vehicles	4 years

During the year, the depreciation methods of property, plant and equipment was revised from reducing balance basis to straight-line basis to better reflect the useful life of the property, plant and equipment. The effect of the change in accounting estimate in the current year was an decrease in depreciation charge of approximately HK\$15,000.

An asset is written down immediately to its recoverable amount if its carrying amount is higher than the asset's estimated recoverable amount.

The gain or loss on disposal of a fixed asset is the difference between the net sale proceeds and its carrying amount, and is recognised in the income statement on disposal.

(n) Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in first out method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(o) *Financial instruments*

(i) *Financial assets*

The Group classifies its financial assets into one of the following categories, depending on the purpose for which the asset was acquired. The Group's accounting policy for each category is as follows:

Financial assets at fair value through profit or loss: include financial assets held for trading. Financial assets are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on these financial assets are recognised in the income statement.

At each balance sheet date subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value, with changes in fair value recognised directly in the income statement in the period in which they arise.

Loans and receivables: These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (trade debtors), but also incorporate other types of contractual monetary asset. At each balance sheet date subsequent to initial recognition, they are carried at amortised cost using the effective interest method, less any identified impairment losses.

An impairment loss is recognised in the income statement when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Available-for-sale financial assets: Non-derivative financial assets not included in the above categories are classified as available-for-sale and comprise the Group's strategic investments in entities not qualifying as subsidiaries, associates or jointly controlled entities. They are carried at fair value with changes in fair value recognised directly in equity. Where a decline in the fair value of an available-for-sale financial asset constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognised in the income statement.

Any impairment losses on available-for-sale financial assets are recognised in the income statement on available-for-sale debt investments, impairment losses are subsequently reversed if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses at each balance sheet date subsequent to initial recognition. An impairment loss is recognised in the income statement when there is objective evidence that the asset is impaired. The amount of the impairment loss is measured as the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses will not reverse in subsequent periods.

(ii) *Financial liabilities*

The Company classifies its financial liabilities into one of two categories, depending on the purpose for which the liabilities was incurred. The Company's accounting policy for each category is as follows:

Financial liabilities at fair value through profit or loss: Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on liabilities held for trading are recognised in the income statement.

Other financial liabilities: Other financial liabilities include the following items:

- Trade payables and other short-term monetary liabilities, which are recognised at amortised cost.
- Bank borrowings are initially recognised at the amount advanced net of any transaction costs directly attributable to the issue of the instrument. Such interest bearing liabilities are subsequently measured at amortised cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the balance sheet. "Interest expense" in this context includes initial transaction costs and premium payable on redemption, as well as any interest or coupon payable while the liability is outstanding.

(iii) *Equity instruments*

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(iv) *Financial guarantee contracts*

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. A financial guarantee contract issued by the Group and not designated as at fair value through profit or loss is recognized initially at its fair value less transaction costs that are directly attributable to the issue of the financial guarantee contract. Subsequent to initial recognition, the Group measures the financial guarantee contract at the higher of: (i) the amount determined in accordance with HKAS 37 Provision, Contingent Liabilities and Contingent Assets; and (ii) the amount initially recognized less, when appropriate, cumulative amortization recognized in accordance with HKAS 18 Revenue.

(v) *Derecognition*

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKAS 39.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

(p) *Provisions and contingent liabilities*

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, which will probably result in an outflow of economic benefits that can be reasonably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(q) *Dividends*

Interim dividends are recognised directly as a liability when they are proposed and declared by the directors.

Final dividends proposed by the directors are classified as a separate allocation of retained profits within capital and reserves in the balance sheet. Final dividends are recognised as a liability when they are approved by the shareholders.

4. **Turnover**

Turnover represents the net invoiced value of goods sold, after goods returns and trade discounts, from retail and wholesale of ladies' and men's fashion apparel and complementary accessories.

5. Segment information

(a) *Business segments*

No segment analysis for business segment is presented as the Group principally operates in one business segment, which is the retail and wholesale of fashion apparel.

(b) *Geographical segments*

The following table presents the revenue, results, assets and capital expenditure information for the geographical segments of the Group.

During the years ended 31 March, 2007 and 2006, no emoluments were paid by the Group to any of the directors as an inducement to join, or upon joining the Group or as compensation for loss of office.

(b) The five highest paid individuals

The five highest paid individuals during the year included three (2006: three) directors. Details of the emoluments of the remaining two (2006: two) highest paid individuals are as follows:

9. Tax (expense)/income

The amount of tax (expense)/income in the consolidated income statement represents:

	GROUP

Current tax — overseas		
— tax for the year	—	(35)
Deferred tax		
— current year	(571)	571
	<u>(572)</u>	<u>463</u>

Hong Kong Profits Tax is calculated at 17.5% (2006: 17.5%) of the estimated assessable profits for the year.

The Group's subsidiary established in the PRC is subject to Corporate Income Tax at a rate of 15% (2006: 15%).

On 16 March, 2007, the Fifth Plenary Session of the Tenth National People's Congress passed the Corporate Income Tax Law of the PRC ("new tax law") which will take effect on 1 January, 2008. A subsidiary in the Group is registered in the Lo Wu District in the PRC and hence enjoy a preferential income tax rate of 15%. From 1 January, 2008, the income tax rate is expected to gradually increase to the standard rate of 25% over a five-year transition period. However, the new tax law has not set out the details as to how the existing tax rate will gradually increase to the standard rate of 25%. Consequently, the Group is not able to make an estimate of financial effect of the new tax law, if any, will be reflected in the Group's 2008 financial statements. The enactment of the new tax law is not expected to have any financial effect on the amounts accrued in the balance sheet in respect of current tax payable.

The tax expense/(income) for the year can be reconciled to the (loss)/profit per the consolidated income statement as follows:

	GROUP	
	2007 <i>HK\$'000</i>	2006 <i>HK\$'000</i>

Tax expense/(income) for the year	572	(463)

10. Dividend

No dividend was paid or proposed during the year of 2007 and 2006, nor has any dividend been proposed since the balance sheet date.

11. (Loss)/earnings per share

The calculation of basic (loss)/earnings per share is based on the loss for the year of HK\$2,558,000 (2006: profit for the year of HK\$2,143,000) and the weighted average number of 200,130,000 (2006: 200,127,000) ordinary shares in issue during the year, calculated as follows:

	2007 Number of shares <i>'000</i>	2006 Number of shares <i>'000</i>
Issued ordinary shares at beginning of the year	200,130	200,060
Share options exercised	—	67
Weighted average number of ordinary shares for the purpose of basic (loss)/earning per share	200,130	200,127

Diluted loss per share for the year ended 31 March, 2007 has not been disclosed as the potential ordinary shares outstanding during the year had an anti-dilutive effect on the basic loss per share for the year.

The calculation of diluted earnings per share for the year ended 31 March, 2006 is based on the profit for the year of HK\$2,143,000 and the weighted average number of 200,133,000 ordinary shares. The weighted average number of ordinary shares used in the calculation is the weighted average number of 200,127,000 ordinary shares in issue during the year, as used in the basic earnings per share calculation and the weighted average of 6,000 ordinary shares assumed to have been issued at no consideration upon exercise of all share options outstanding during the year.

The Group's leasehold land and buildings in Hong Kong was last valued at 31 March, 2007 by qualified valuers from Savills Valuation and Professional Services Limited, on an open market value basis. Messrs. Savills Valuation and Professional Services Limited is not connected with the Group.

Had the revaluated leasehold land and buildings been measured on a historical cost basis, their net book values would have been HK\$4,939,000 (2006: HK\$5,047,000).

The amount payable is dependent on the employees' final salary and years of service, and is reduced by entitlements accrued under the Group's retirement plans that are attributable to contributions made by the Group. The Group does not set aside any assets to fund any remaining obligations. According to the Hong Kong Employment Ordinance, the directors applied the statutory maximum retirement benefits entitled to each employee in the calculation of long service payments.

Note:

Share options

The operation of the share option scheme adopted by the Company on 14 March, 2000 (the "Old Scheme") was terminated upon the adoption of the New Scheme (as defined below). In such event, no further option would be granted under the Old Scheme. However, all options granted prior to such termination and not yet exercised shall continue to be valid and exercisable subject to and in accordance with the Old Scheme.

On 10 September, 2002, at the annual general meeting, the Company adopted a new share option scheme (the “New Scheme”) under which the board of directors may, at their discretion, invite any full time and part time employees, directors, suppliers, customers, consultants, advisors or shareholders of any of the companies within the Group to take up options to subscribe for ordinary shares of the Company at any time during ten years from the date of adoption.

The total number of shares which may be issued upon exercise of all options to be granted under the New Scheme and other schemes of the Group must not in aggregate exceed 10% of the shares in issue upon completion of the share offer and the capitalisation issue at the time dealings in the shares commence on the Stock Exchange unless a fresh approval from the shareholders of the Company has been obtained.

The maximum number of shares which may be issued upon the exercise of all outstanding options granted and yet to be exercised under the New Scheme and any other share option schemes of the Company shall not exceed such number of shares as shall represent 30% of the issued share capital of the Company from time to time.

The total number of shares issued and may be issued upon exercise of the options granted to each eligible person under the New Scheme and any other share option schemes of the Company (including exercised, cancelled and outstanding options) in 12-month period must not exceed 1% of the issued share capital of the Company.

Option granted under the New Scheme must be accepted within 28 days from the date of grant. Upon acceptance, the grantee shall pay HK\$1.00 to the Company as consideration for the grant.

The subscription price for the shares under the New Scheme shall be a price determined by the board of directors of the Company and notified to an eligible participant and shall not be lower than the higher of: (i) the nominal value of a share; (ii) the closing price of one share as stated in the daily quotation sheets issued by the Stock Exchange on the offer date, which shall be a business day; and (iii) the average closing price of the shares as stated in the daily quotation sheets issued by the Stock Exchange for the five business days immediately preceding the offer date.

The following tables disclose details of the Company’s share options under the old Scheme held by employees (including directors) and movements in such holdings during the year.

			<u> </u>	<u> </u>

Details of unexpired and unexercised share options analysed by directors and non-directors are disclosed in the report of directors.

The financial impact of share options granted and vested before 1 April, 2005 was not recorded in the Company's or the Group's balance sheet until such time as the options are exercised, and no charge was recognised in the income statement in respect of the value of options granted and vested before 1 April, 2005. Upon the exercise of the share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which lapse or are cancelled prior to their exercise date are deleted from the register of outstanding options. Under the Companies Act 1981 of Bermuda (as amended), contributed surplus is available for distribution to shareholders. However, a company cannot declare or pay dividends, or make a distribution out of contributed surplus, if:

- (1) the Company is, or would after the payment be, unable to pay its liabilities as they become due; or
- (2) the realisable value of the Company's assets would thereby be less than the aggregate of its issued share capital and share premium accounts.

26. Retirement benefits scheme

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance, for those employees who are eligible to participate in the MPF Scheme in Hong Kong. The MPF Scheme has been operated since 1 December, 2000. Contributions are made based on a percentage of the employees’ basic salaries and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group in the PRC are required to participate in a central pension scheme operated by the local municipal governments. The Group are required to contribute certain stipulated percentage of its payroll costs to the central pension scheme. The contributions are charged to the income statement as they became payable in accordance with the rules of the central pension scheme.

The transactions were based on normal commercial terms and with reference to market prices. The director of that subsidiary declared that such entity is beneficially owned by an independent third party. The transactions ceased subsequent to 31 March, 2007.

30. Financial instruments — risk management

The Group is exposed through its operations to the following financial risks:

- Currency risk
- Liquidity risk
- Interest rate risk
- Fair value risk

Policy for managing these risks is set by the directors of the Group. The policy for each of the above risks is described in more detail below.

(a) *Currency Risk*

Several subsidiaries of the Group have foreign currency purchases which expose the Group to foreign currency risk. The management is aware of the possible exchange appreciation in Euro in the future although the Group's cash outlay on purchase of raw materials are mainly denominated in Hong Kong dollars and United State dollars and currency risk exposure is immaterial. The Group currently does not have a foreign currency hedging policy. However, the management will monitor foreign exchange exposure and consider hedging significant foreign currency exposure should the need arises.

(b) *Liquidity Risk*

Individual operating entities within the Group are responsible for their own cash management, including the cash, current working capital and the raising of funds from issue of shares and underlying interests in shares of the Company, subject to approval by the Company's shareholders, if necessary. The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and current working capital to meet its liquidity requirements in the short and longer term.

(c) *Interest Rate Risk*

The Group is exposed to interest rate risk on variable-rate bank loans and other loan. The management monitors the related interest rate risk exposure closely and will consider hedging significant interest rate risk exposure should the need arises.

(d) *Fair Value Risk*

The fair values of financial assets and financial liabilities reported in the balance sheets of the Group and the Company approximate their carrying amounts.

SLFM is treated as a subsidiary, the Group controls the composition of the board of directors of SLFM and has control over the financial and operating policies of SLFM. On 2 February, 2007, the form of business structure changed to wholly owned foreign enterprise, which supercedes the previous joint venture structure.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

None of the subsidiaries had any debt securities subsisting at the end of the year or at any time during the year.

32. Critical accounting judgements and key sources of estimation uncertainty

In the process of applying the Group's accounting policies which are described in note 2, management has made the following judgments that have significant effect on the amounts recognised in the financial statements. The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are also discussed below:

(a) *Impairment loss on trade receivables*

The policy for impairment of trade receivables of the Group is based on the evaluation of collectability and ageing analysis of the trade receivables and on management's judgement. A considerable amount of judgment is required in assessing the ultimate realisation of these trade receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional impairment may be required.

(b) *Impairment loss on inventories*

The management of the Group reviews an ageing analysis at each balance sheet date, and writes down obsolete and slow-moving inventory items identified to net realisable value. The management estimated the net realisable value for such inventories based primarily on the latest invoice prices and current market conditions.

(c) *Depreciation and impairment of property, plant and equipment*

The management of the Group reviews the depreciation policy and estimates the useful lives of each category of property, plant and equipment with respect to their respective condition and deterioration rate. If the conditions and recoverable value of assets were to deteriorate, acceleration on depreciation and additional impairment may be required. The management will also consider referring to professional property valuers' estimation in assessing impairment.

(d) *Provision for long service payment and annual leave*

A provision is made for the estimated liability for long service payment and annual leave and the calculation of which involves assumption and assessment on the employees' final salary, years of service, employee turnover rate, the change of labour market condition and other relevant economic and strategic policies. Adjustment on provision is dependent on the aggregate effect of relevant factors which involve considerable degree of estimation. The management will also consider taking reference to the independent valuers' report in assessing whether adjustment on provision is required.

33. Approval of financial statements

The financial statements were approved and authorised for issue by the Board of Directors on 27 July, 2007.

3. INDEBTEDNESS

As at May 31, 2007, (the latest practicable date for this statement of indebtedness prior to printing of this Composite Offer Document), the Group had outstanding debts and finance lease obligations amounting to approximately HK\$4.4 million, of which, HK\$4.0 million was secured bank loans and approximately HK\$0.4 million was obligations under finance leases. As at May 31, 2007, the Group's leasehold land and building and fixed bank deposit of HK\$3.5 million were pledged to the secured bank loans of the Group. As at May 31, 2007 the Group has no significant contingent liabilities and the Company had provided guarantee to a bank against pledged bank loan utilized by a subsidiary.

As at May 31, 2007, save as aforesaid and apart from intra-group liabilities and normal trade payables, none of the companies in the Group had any outstanding mortgages, charges, debentures, loan capital, bank overdrafts, loan or indebtedness in the nature of borrowings, debt securities or other similar indebtedness, finance leases or hire purchase commitments, or any guarantees or other material contingent liabilities.

4. MATERIAL CHANGES

As at the Latest Practicable Date, the Directors are not aware of that there has been any material change in the financial or trading position or outlook of the Group since March 31, 2007, being the date to which the latest published audited consolidated financial statement of the Group were made up.

Dear Sirs,

**RE: FLAT B ON 11TH FLOOR OF BLOCK 8, WONDERLAND VILLAS, 9 WAH
KING HILL ROAD KWAI CHUNG, NEW TERRITORIES**

In accordance with your instructions for us to value the captioned property held by Gay Giano International Group Limited (“the Company”) and its subsidiaries (hereinafter together referred to be the “Group”), we confirm that we have caused land searches at the Land Registry and made relevant enquiries and investigations as we consider necessary for the purpose of providing you with our opinion of the market value of the property as at 30 June 2007 for circular purposes.

Our valuation is our opinion of the market value of the property which we would define as intended to mean “the estimated amount for which a Property should exchange on the date of valuation between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion”.

The market value is the best price reasonably obtainable in the market by the seller and the most advantageous price reasonably obtainable in the market by the buyer. This estimate specifically excludes an estimated price inflated or deflated by special terms or circumstances such as atypical financing, sale and leaseback arrangements, joint ventures, management agreements, special considerations or concessions granted by anyone associated with the sale, or any element of special value. The market value of a property is also estimated without regard to costs of sale and purchase, and without offset for any associated taxes.

Our valuation is prepared in accordance with The HKIS Valuation Standards on Properties published by The Hong Kong Institute of Surveyors (1st Edition 2005) and complies with Chapter 5 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The property has been valued by reference to sales evidence as available on the market assuming that vacant possession of the property would be immediately available upon completion of a sale.

In valuing the property, the Government lease of which had expired before 30 June 1997. We have taken into account the provisions of Annex III of the Joint Declaration of the Government of the United Kingdom and the Government of People's Republic of China as well as the New Territories Leases (Extension) Ordinance 1988 stipulating that such leases have been extended without premium until 30 June 2047 and that the rents of three per cent of the rateable values are charged per annum from the date of extension.

We have not been provided with any title documents relating to the property but we have caused searches to be made at the Land Registry. We have not, however, inspected the original documents to verify ownership or to ascertain the existence of any amendment which does not appear on the copies obtained by us.

We have relied to a very considerable extent on information given by you and have accepted advice given to us on such matters as planning approvals or statutory notices, easements, tenure, lettings, occupancy status, floor areas and all other relevant matters. Dimensions, measurements and areas included in the valuation certificate are based on information contained in the documents provided to us and are therefore only approximations.

We have inspected the exterior of the property valued and, where possible, we have also inspected the interior of the premises. However, no structural survey has been made but in the course of our inspection, we did not note any serious defect. We are not, however, able to report that the property is free of rot, infestation or any other structural defect. No test was carried out on any of the services.

No allowance has been made in our valuation for any charges, mortgages or amounts owing on the property nor for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that the property is free from encumbrances, restrictions, and outgoing of an onerous nature which could affect its value.

We enclose herewith our valuation certificate for your attention.

Yours faithfully
For and on behalf of
Savills Valuation and Professional Services Limited
